

Dear \_\_\_\_\_,

As you know, our bishops are funding and engaging in political activity across the country to strip our LGBT family and parish members of all legal recognition and protection, including the ability to go to city hall and obtain a civil marriage license.

As a faithful Catholic I cannot allow my money to be used to fund such political activity and I urge you to make a public statement, as other parishes have done, that our parish will neither fund nor engage in this political activity. Until then, in good conscience, I will be contributing my family's weekly offering to a parish or organization that has made this important public statement.
